Public-Private Cooperation

The Conceptual Framework

“Where public policy issues were involved, we established a tradition of extensive consultation right across the relevant sections of the market.

We recognized early on that intervention needed to be informed by those who properly understood the subtleties of the market, if we were to reduce the risk of unforeseen consequences.

In some instances this approach involved encouraging the market itself to address the particular issue in question as a preferable alternative to official action.”

Sir Edward George, (Fmr) Governor, Bank of England

Public-Private Cooperation Opportunities and “Challenges”

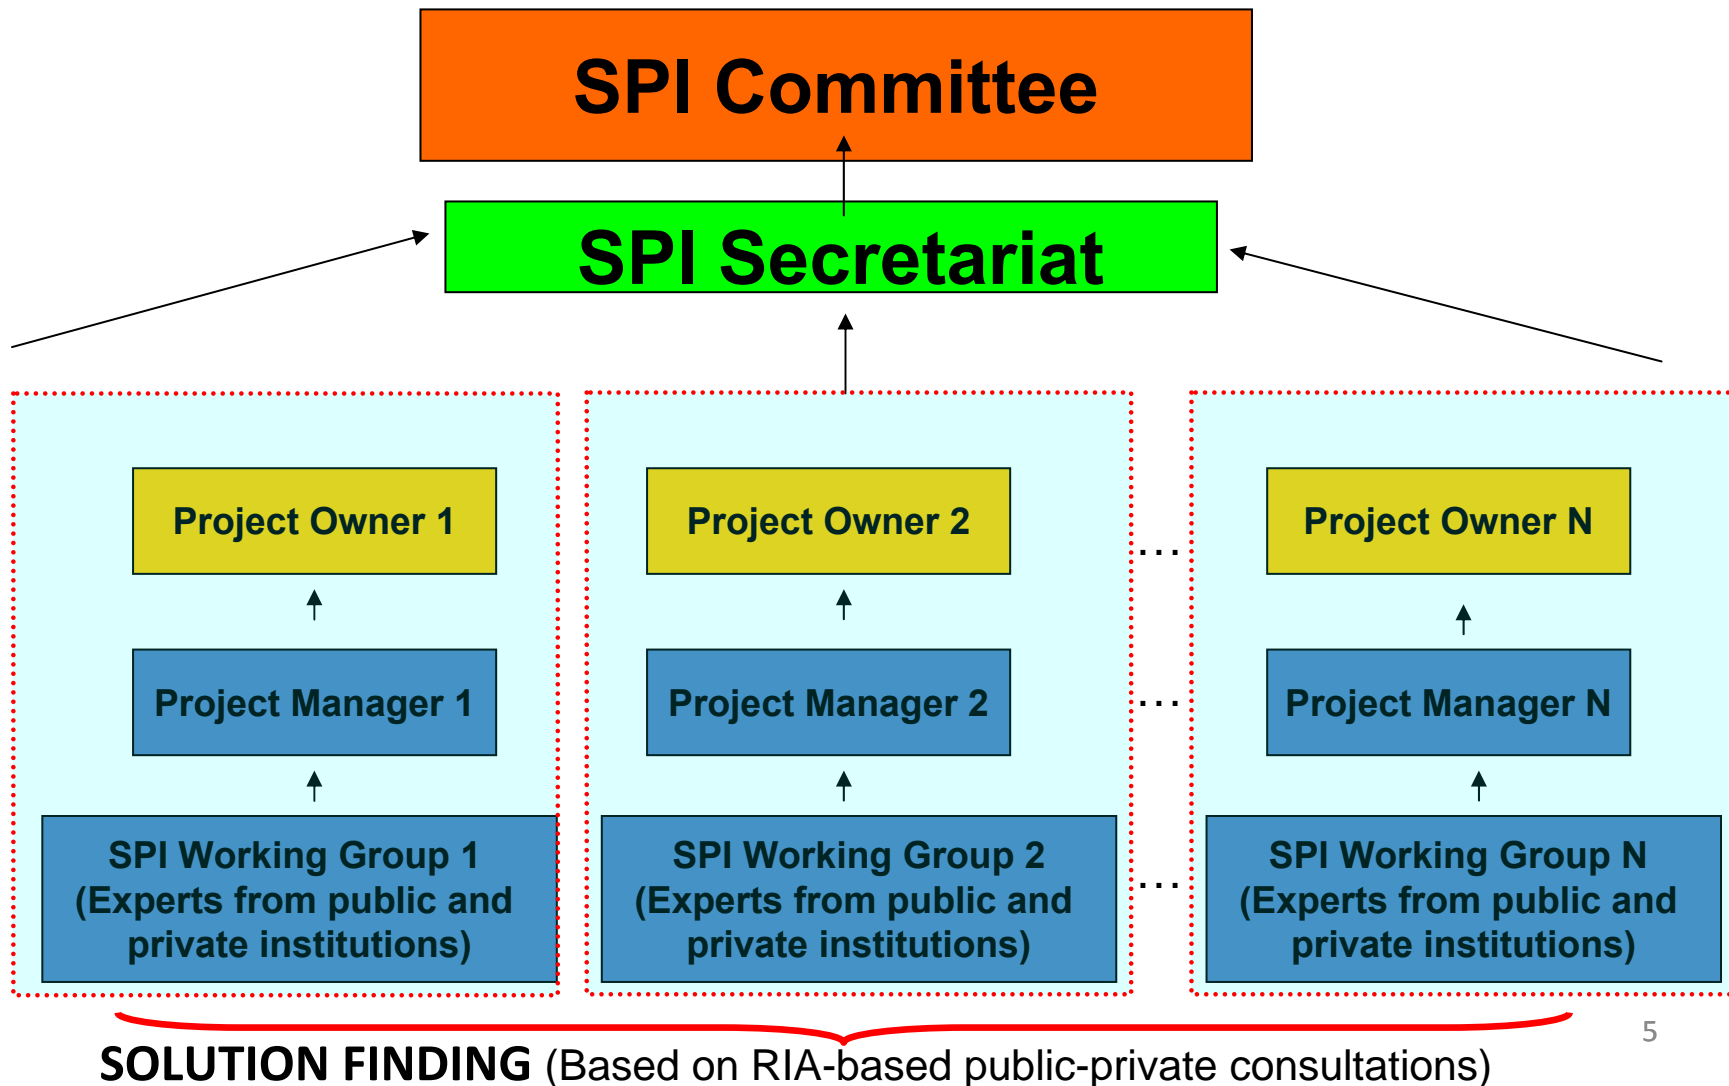

- Strong policy dialogue in advanced jurisdictions
 - UK FSA: 23 formal consultations in 2007 (18 in 2006)
 - 135 submissions to EU Retail Policy Green Paper (2007)
 - Market participants invest in knowledge because it has impact
- Market participants can take key self-regulatory actions
 - Patti Chiari (ABI), Deposit Insurance (BDB), STEP (ACI)
- But, if authorities are less committed to policy dialogue, market participants have weaker incentives to invest in knowledge, advocacy and collective actions
 - Negative externalities and large private opportunity losses
 - A large banking group has inventoried 273 unsolved issues in C&SEE!

The World Bank's Convergence Program

- Set up in 2005 to foster public-private policy dialogue in South-East Europe
 - Coordination failures hamper modernization
 - Promoting transparent and robust dialogue framework
 - Building up market analytical and policy design skills
 - Italian Banking Association benchmark
- Has adopted EU policy design tools
 - “Better Regulation” key to deal with reform agenda
- Operational instrument: SPI Platform
 - Time-to-launch: 6 months
 - Time-to-first regulatory proposals: 12 months

The SPI Platform (1)

SOLUTION ENDORSEMENT AND ENACTMENT

The SPI Platform (2)

1. SPI Committee sets reform program

- Central Bank, Banking Association, Ministry of Finance, Consumer Protection Agency, Convergence Program
 - Industry can propose issues of interest
 - Analytical work starts if authorities do not object
 - Authorities agree ex-ante to act on proposed WG solutions

2. SPI Secretariat is the “engine” of the platform

- “Executive Project Manager”
- 2-3 staff with banking, consulting and policy background
- Close liaison with Banking Association and Central Bank
- Convergence Program’s technical support
 - Catalytic, enabler, “honest broker”, gap filler

3. Working Groups prepare analytical solutions

- Bank and official experts work side-by-side

SPI Platform Impact

- Efficient processing of large modernization program
 - 10-15 key projects/year
 - Operating costs: 0.5% of annual gains for banking sector
- Banking association influence leapfrogs
 - It acquires “right of initiative”
 - Many more issues to handle... and results to show...
- Proven successful in Romania

Beyond SPI Adriatic

- Significant financial sector modernization opportunities in several EU neighbors
 - Russia, Turkey, Ukraine, Azerbaijan, Moldova
 - Ownership and financial links suggest usefulness of coordinated SPI platforms
- Principals (EBF Associates, authorities, international banks,...) promote SPI Platform
 - Based on SPI Romania benchmark
- World Bank's Convergence Program available to "coach" country SPI Platforms
 - Public-private advisory mandate
 - Cost-recovery basis

Issues For Discussion

1. Does financial sector modernization offer an opportunity to strengthen the “market voice”?
2. Are banks willing to mobilize expertise to prepare modernization solutions?
3. Can banking associations link member’s fees to tangible results for their members?
4. Can SPI Platforms accelerate growth of banking associations?

Proposed Next Steps

1. EBF Associates organize follow-up SPI country seminars with authorities
 - SPI Adriatic perimeter and elsewhere
2. EBF channels EBF Members' experiences to SPI Platforms
 - EBF-Convergence Program MoU?
3. EBF notes usefulness of SPI Platform to ECB and DG Enlargement
 - Encouraging adoption of “Better Regulation” by non-EU financial authorities
